Damietta, Egypt

Frontend Developer with 1.5 years of professional experience with a strong foundation in HTML, CSS, and JavaScript. Proficient in React, Angular and responsive design principles. Seeking to leverage my skills and passion for creating engaging user experiences to contribute to a dynamic web development team.

Education

Delta Higher Institute for Computer at Delta University, Mansoura

September 2019 - August 2023

Relevant Coursework: Data Structures, Algorithms, Software Engineering, Database Management Systems, Object-Oriented Programming (OOP), and Web Development.

Experience

Frontend Developer(angular) at Digital Universe, Remote

August 2024

- Enhanced a long-running ERP system (since 2020) by fixing issues, adding new features, and improving overall performance

Internships

Frontend Developer at Digital Universe, Remote

August 2024 - November 2024

- Enhanced a long-running ERP system (since 2020) by fixing issues, adding new features, and improving overall performance

Front End Developer Intern (Angular) at Route Academy, online

January 2023 - July 2023

Skills

Languages::: TypeScript, java, JavaScript (ES6+), HTML5, CSS3, Sass.

Frameworks::: Angular, React, jQuery, RxJS.

UI/UX::: Tailwind CSS, Bootstrap, Angular Material.

Tools::: Git, GitHub, Vercel, Firebase

Volunteering

at Frontend Developer Member | IS Community - Delta University, Mansoura

September 2019 - October 2023

- Collaborated on developing the community's official landing page using HTML5, CSS3, and JavaScript, ensuring a responsive and user-friendly design. Organized and conducted technical workshops for junior students, covering web development fundamentals and modern frontend best practices. Mentored new members on version control basics (Git) and building modular UI components.

Projects

5dmadev.online (Angular)

Worked on ERP system interfaces, developing and maintaining responsive front-end modules for inventory, sales, and HR to ensure optimal user experience.

E-Commerce Platform (Angular) • [↗](#)

Developed a website mimicking Jumia's platform using Angular for the user interface, Node.js for local server management, MongoDB for secure and efficient data storage, and HTML/CSS/tailwind for interface design and styling

Gaming • ↗

A modern web application built with Angular and Tailwind CSS to display gaming data. Focused on high performance and clean UI/UX, utilizing Angular's latest features for efficient data binding and routing.

Languages

Arabic

English - Proficient

Certificates

Frontend Development Professional (Angular) from Route Academy

January 2023

Successfully completed an intensive frontend development program focusing on Angular and React TypeScript. Mastered core concepts including reactive programming with RxJS, state management, and component-based architecture. Developed several real-world projects using modern styling tools like Tailwind CSS and Bootstrap
